Presenting Romero

The seventh project in the prestigious Real de La Quinta Residential Country Club Resort®, Romero, is an exclusive gated enclave of just 28 designer residences set across four boutique blocks. Perched in a breathtaking, natural setting, this collection of homes offers uninterrupted panoramic views of the ocean, framed by the rolling mountain range behind.

Each nature inspired residence features expansive open and covered terraces accessible from both living areas and bedrooms. Flooded with natural light and fresh mountain air, these spaces invite effortless indoor-outdoor living.

It's the only project where residents can exclusively enjoy a saltwater infinity pool and three communal platforms housing a gym, a coworking space and one with views for relaxation and reflection.

Romero

Romero consists of just 28 apartments spread across four buildings, offering the perfect combination of apartments and penthouses to meet our clients' needs. The buildings have a maximum of three floors, ensuring that Romero blends seamlessly into its natural surroundings.

It features generously landscaped outdoor common areas with meticulous landscaping, featuring native aromatic plants, shrubs, and low-water trees. Pedestrian paths and garden areas are adapted for people with reduced mobility, and there is private access to a sun terrace outside the home from the entrance, in addition to the usual access via the home's internal staircase.

Close to all the leisure facilities offered by Real de La Quinta Residential Country Club Resort®, including the Angsana Real de La Quinta Hotel & Branded Residences by Banyan Tree Group, just a few minutes' walk from Romero.

Exceptional Location

State of the Art Design

The Real de La Quinta Residential Country Club Resort® is where sustainability meets unparalleled luxury. Our commitment is not just to build homes; it's a pledge to harmonise with the land and embrace the natural beauty of our surroundings.

Collaborating with renowned architects HCP Architecture & Engineering, the creative partnership behind the Angsana Real de La Quinta Hotel & Branded Residences By Banyan Tree Group, Romero will combine state of art construction with timeless design.

Although it is just a few minutes from Marbella and Puerto Banús, its elevated location in a mountain enclave offers unique and privileged views.

An Exceptional Location

Real de La Quinta Residential Country Club Resort* is situated within an exceptional natural enclave bordered by spectacular, panoramic sea views to the South, the emblematic La Concha mountain to the East and the Sierra de Las Nieves mountain range, a UNESCO protected biosphere, Spain's 16th National Park, and the third in Andalusia, to the North.

Although it is merely minutes from Marbella and Puerto Banús, it breathes a different, fresher air.

Within Romero residents will feel completely immersed in nature with the scents and sounds of unspoiled countryside from this elevated position.

A Certified, Sustainable Lifestyle

As with everything within the Real de La Quinta Residential Country Club Resort® Romero is conceived to become an integral part of the landscape.

Showing complete respect for the natural environment with a careful blend of the most advanced construction techniques and local materials its impact will be minimal, and yet residents will enjoy the benefits of advanced, modern living.

The design respects the natural contours of the land to maximise the superb position for panoramic views across the Resort.

Real de La Quinta Residential Country Club Resort® is **the first project in Spain to receive the infrastructure planning certificate issued by BREEAM**, the leading global sustainability assessment organisation.

All our projects have the highest possible Breeam certification with a minimum rating of Good, and it is our intention to meet the same demanding requirements with Romero.
